Across

5. This will remain static or unmodified when the formula is copied.(6,4,9)
6. Small rectangles that go across a spread sheet(4)
7. The final part of a cell reference(4)
8. Calculations that update automatically(7)
9. Cells that can change in size, shape and colour(11)
- 10.This changes with the value of the cell(11,10)

Down

- 1.It shows where a cell is on the spread sheet(4,9)
- 2.Lots of cells put together to show work(5)
- 3.What you get and use to make charts(4)
- 4.The first part of finding a cell reference(7)
