

The Environmental Policy of Mythic Beasts Ltd (“the Company”) is to ensure so far as it is reasonably practicable, that its operations will be carried out with a commitment to protecting and enhancing the environment.

As a business, we know that we generate waste products and that we have an environmental impact due to the resources our services use. However, as we strive for excellence in every aspect of our business, we are committed to minimising the environmental impacts of the business operations.

Mythic Beasts does not have a central office and so, has a very small office-based carbon footprint. Employees who need to travel are encouraged to use public transport where possible.

Mythic Beasts is a long-term sponsor of environmental support projects such as Camcycle and CycleStreets.

1. Our stated aims are to:
 - 1.1 Continuously improve our environmental performance with regard to all aspects of our business.
 - 1.2 Prefer servers and equipment that maximise power efficiency.
 - 1.3 Prolong the use life of all our equipment to reduce waste.
 - 1.4 Where possible, use recycled or ecologically-friendly paper.
 - 1.5 Where possible, use data centres that are powered by renewable resources and prefer data centres with better power efficiency (low PUE).
 - 1.6 Assist the data centres we use in reducing power consumption where possible. For example, by using blanking plates and correct hot/cold aisle configuration.
 - 1.7 Assist customers where possible in recycling or reusing their equipment rather than straight disposal.
 - 1.8 Advise customers on reducing their power consumption.
 - 1.9 Reduce our consumption of resources and improve the efficiency of those resources by not printing documents or by printing double sided where practicable.
 - 1.10 Manage waste generated from our business operations according to the principles of reduction, reuse and recycling.
 - 1.11 Comply as a minimum with all relevant environmental legislation as well as other environmental requirements.

This Environmental Policy Statement will be regularly reviewed and updated as necessary. The management team endorses these policy statements and is fully committed to their implementation.
